

QUALITY GUARANTEED

When you get your reo from one of these suppliers:

Over 140,000 tonnes of steel reinforcement is supplied in our market each year from unknown origins.

This steel may, or may not, conform to Australian Standards.

We make it easy for you to know for sure.

The Steel Reinforcement Institute of Australia requires all members to hold a current JAS-ANZ accredited 3rd party processor certificate that proves their bar and mesh conforms to AS/NZS 4671.
